Please Note: Table 2 (STD cases and rates by age and race/ethnicity) is currently unavailable as 2012 data are being finalized. Please accept our apologies for this inconvenience.

Key Points comparing YTD cases reported through October 2011 to October 2012.

- Chlamydia has increased 13.9%.*
 - Female (<17) chlamydia has decreased 31.2%.*
 - Male rectal chlamydia has increased 30.6%.*
- Gonorrhea has increased 26.6%.
 - Female (18-25) gonorrhea has increased 49.5%.
 - Female (<17) gonorrhea has decreased 23.1%.
- Early syphilis has increased 14.7%.

*Data compares September 2011 to September 2012.

Note: All data are provisional. Case count is based on the earliest of date of diagnosis, date of specimen collection and treatment date. Totals for past months might change because of delays in reporting from labs and providers.

Editorial Note: The California STD/HIV Prevention Training Center

The California STD/HIV Prevention Training Center (CA PTC) is part of a national network of training centers offering dynamic continuing education. The CA PTC provides trainings that are designed to meet the needs of a wide array of medical, health promotion and community professionals serving persons and communities impacted by STDs and HIV. Courses offered include:

- <u>Capacity Building Assistance</u>: Builds the capacity of health departments and community-based organizations to
 implement, monitor, and evaluate evidence-based interventions, public health strategies, and comprehensive HIV prevention programs. Services
 include one-on-one technical consultations and skills-based trainings.
- <u>Partner Service & Program Support</u>: Courses are designed for federal, state, and local public health professionals, especially those working in STD/HIV prevention programs. Several courses focus on training to help develop the skills of disease intervention specialists and prevention counselors; other courses are designed to support STD and HIV prevention programs at state, local, and community levels.

The CA PTC also houses a wealth of <u>resources</u>, including curricula and educational materials available to download. <u>Online courses</u> are available for continuing education credit. For more information please visit the CA PTC website (http://stdhivtraining.org) or email captc@ucsf.edu.

YTD: Year to Date

^{*}Chlamydia data through September 2012 due to data entry delay, with comparison data through September 2011.

^{**}Includes confirmed and probable cases of neurosyphilis among cases of early syphilis only.

^{***}New infections are reported either as HIV or, if an individual was also diagnosed with AIDS within one month, as AIDS.
